

**Subject: EOX for Original VT & New Product Replacement**

**Date: September 1<sup>st</sup>, 2021**

Dear Partners,

As to our schedule, Original VT models will not be supplied from Aug 30<sup>th</sup>, 2021. The service and spare parts will be stopped from Feb 30<sup>th</sup>, 2023. The schedule has been attached hereby (See Form 1 for details).

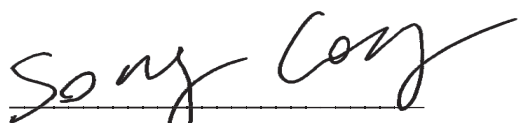

Taking into account the product platform upgrade and the material supply chain of the old platform, and based on the company's planning for the entire HMI product line, INVT has upgraded the VT series of products this time (See Form 2 for details). The overall performance of the new models are more comprehensive, which can perfectly cover the application of the original models and meet the diverse control needs of customers.

Please do arrange the shift plan and make the acceptance of the promotion of New HMI models.

Thanks for all your efforts to promote INVT products and service.

**GM of OBU**

**Mr. Alan Song**

  
SHENZHEN INVT ELECTRIC CO., LTD

VT	VT070-N0CX-U	None	None
VT	VT070-H1ET-N	VT2070-H1ETR-31	7", COM1/COM2/COM3, with Ethernet
VT	VT070-N0CX-N-4	VT2070-N0CTR-24	7", COM1/COM2/COM3, without Ethernet
VT	VT070-N0CX-N	VT2070-N0CTR-24	7", COM1/COM2/COM3, without Ethernet
VT	VT100-H1ET-N	VT2104-H0ETR-51	10.4", COM1/COM2/COM3/COM4/COM5, with Ethernet
VT	VT100-N1CT-N	VT2104-H0ETR-51	10.4", COM1/COM2/COM3/COM4/COM5, with Ethernet
VT	VT104-H1ET-N	VT2104-H0ETR-51	10.4", COM1/COM2/COM3/COM4/COM5, with Ethernet
VT	VT104-N1CT-N	VT2104-H0ETR-51	10.4", COM1/COM2/COM3/COM4/COM5, with Ethernet
VT	VT104-N1ET-N	VT2104-H0ETR-51	10.4", COM1/COM2/COM3/COM4/COM5, with Ethernet
VT	VT150-H1ET-N	TC6156H	15", COM1/COM2/COM3/COM4/COM5, with Ethernet, with 12V mainboard

### Note:

1. For all HMI products, INVT provides a standard maintenance time of one and a half years. During the maintenance period, INVT provides free replacement service.
2. INVT no longer offers 5.6" HMI sales from Aug 30<sup>th</sup>, 2021, and only retains 7" and larger HMI.
3. During the maintenance period, VT070-N0CX-U can be replaced by any 7" HMI for free.
